Increasing Costs and Enrollment Cause Worries for School Boards

Canadian school boards are facing a new problem in the near future. The increasing costs of education, coupled with the enrollment of students, are causing school boards to worry. The cost of education is increasing at a rapid rate, and school boards are having to find ways to pay for it. The enrollment of students is also increasing, and school boards are having to find ways to accommodate them. This is a serious problem for school boards, and they are looking for solutions.

Notice Preparation of Assessment Roll 1956

The Village of Brudenium is hereby giving notice that the Assessment Roll for the year 1956 will be prepared and will be for 30 days, to open to inspection at the office of the Secretary-Treasurer of the Village from 10 o'clock in the forenoon until 4 o'clock in the afternoon on every day except a public holiday, except Saturday and on that day from 10 o'clock in the forenoon until 2 o'clock in the afternoon, and that any person who desires to object to the value of his property or to that of any other property, or to the assessment of any property, or to the amount value placed on any property, must, within 30 days from the date of this Notice, lodge his complaint in writing with the Secretary-Treasurer of the Village of Brudenium.

Civil Defence - Its Organization

The federal government has announced that it will be organizing a civil defence force. This force will be made up of men and women who are trained in civil defence. They will be responsible for the protection of the population in the event of a disaster. This is a very important step, and it shows that the government is taking the protection of its citizens seriously.

THE PORT SASKATCHEWAN RECORD

30 Jan has been working for the past 10 years in the same position in the same department. They said to the flying on to the company plane and a formal dinner will be arranged for them. They will have a good rest and then return to their work.

It is good to see Mrs. Mithun and her children. The next day the first part of the winter is finished and the house of her daughter's is finished.

Miss Marie, daughter of Vandenheuvel is the guest of her sister Mrs. Gussie Gussie.

FIGHT CANCER

and a change

Whether you are concerned about your health, the way you live or the way you work, you need a better approach. At a time when everyone has your doctor's advice to "eat right, exercise, and get plenty of sleep," it's not surprising that more people are turning to the health care professionals who can help them do it right.

At the University of Maryland, we have more than 100 years of experience in helping people live better, longer lives. We have the resources, the knowledge, and the commitment to help you live better, longer lives. We have the resources, the knowledge, and the commitment to help you live better, longer lives.

Accident costs *Sat* automobile insurance rates

Automobile insurance rates are not in direct relation to the number and cost of accidents in Canadian drivers' last year, for example, automobile insurance claims amounted to more than an **extra dollar a day** - a factor you can control every two minutes and accidents were injured or killed every 12 minutes.

When the rate of automobile accidents decreases, so do automobile insurance rates. But, when the number and cost of accidents increase, then insurance rates increase too.

How costly?

The days after the grain shed straight and promising in the fields. Then the temperature dropped . . . and the crop bowed to its greatest enemy—frost.

Yus drops your earlier harvest beans from fertilizer—would have made the difference between profit and loss from frost-killed grain. Mophead brand high analysis fertilizers, rich in nitrogen and phosphorus plant food and "water-soluble" for the Canadian Pacific's drop bags work to actually *thaw* . . . a harvest up to its days earlier.

Her first step — the bank

When Miss. Williams planned to go shopping, her husband "Tom" said, "Before you go to the bank, it is a smart thing to go to, for going to the bank is just a part of everyday life."

In the bank, Miss. Williams noticed Miss. Brown, the acquaintance... Miss. Brown's husband... and her neighbor's son Bobby, adding to his savings account.

When Tom entered, he pleasantly "thanked everybody for the bank." It's now, Canadians find the channel banks such a safe and handy place to keep money that practically everybody has a bank account. There are now more than 10 million deposit accounts in the channel banks—many accounts that are added in the country.

THE CHARTERED BANKS SERVING YOUR COMMUNITY

Of Many Things

ONE OF THE MOST IMPORTANT THINGS IN THE WORLD IS TO HAVE A GOOD BANK ACCOUNT.

For the man who is a successful business man, a good bank account is a necessity. It is the place where he can keep his money safe and sound, and where he can draw on it when he needs it. It is the place where he can keep his money growing, and where he can draw on it when he needs it.

Force Rat Colonies

Back to Berlin

The rat infestation problem in Berlin is a serious one. It is a problem that has been around for a long time, and it is a problem that is still with us today. The rats are a nuisance, and they are a danger to the health of the people of Berlin. They are a pest, and they are a problem that must be solved.

Broderick Memorial Church Setting for Recent Wedding

A recent wedding was celebrated in the Broderick Memorial Church, Fort Saskatchewan, on October 18. The bride, Miss Margaret Broderick, was married to Mr. John Broderick, of Fort Saskatchewan. The ceremony was officiated by Rev. J. H. Broderick. The bride was escorted by her father, Mr. J. H. Broderick. The groom was escorted by his best man, Mr. J. H. Broderick. The wedding was a private affair, with only family and friends in attendance. The reception was held at the home of the bride's parents.

Around the town

The town of Fort Saskatchewan is experiencing a period of growth and development. The local economy is strong, and the community is active. The town council is working on various projects to improve the town. The schools are doing well, and the churches are active. The town is a pleasant place to live and visit.

Canadian Hypochondriacs?

It is often said that Canadians are hypochondriacs. This is a common stereotype, but it is not always true. Many Canadians are healthy and active. However, there are some Canadians who are overly concerned about their health. This can be a problem, as it can lead to unnecessary medical visits and tests. It is important to be concerned about your health, but not to be a hypochondriac.

IN MEMORIAM

We mourn the passing of Mr. J. H. Broderick, who died on October 18, 1958. He was a kind and gentle man, and a good friend to all who knew him. He is now at rest in the afterlife. His family and friends are grieving his loss. We will miss his presence, but we know he is still with us in spirit.

Use Washer & Dryer Unit

This is the reason why many business clothes have been hanging in cupboards for so long. Why hang on days things the hard way when there is an easier way — and that is to install an automatic Washer and Dryer Unit.

Why pay three or four times as much for a suit when you can have it made in a matter of days? Why pay for a suit when you can have it made in a matter of days?

Meet your bank manager...

It's easy to meet—and a good man to talk things over with.

Not just because he knows a lot about banking, but because he can be counted on to apply that knowledge and experience to your particular needs.

To him banking is more than dollars and cents, more than figures in a ledger. To him, banking is the opportunity to work with people—through bank services to help with your problems, your hopes and plans.

That is why he has been trained to do. That is what he likes to do. You'll find he's a good reason to know.

Canadian Relief Group Formed

A Canadian relief organization has been formed to help the victims of the recent flood in the United States. The organization is called the Canadian Relief Group and is made up of people from all parts of the country. They are working to raise money and provide supplies for the victims of the flood.

The meeting held at Red Cross headquarters in Toronto, under the auspices of the Red Cross, was attended by representatives of all of the Canadian Relief Groups. The meeting was held to discuss the needs of the victims of the flood and to plan the relief efforts.

Young Drivers in Hunt Roads

There is a growing concern among the public regarding the safety of young drivers on the roads. The Port Saskatchewan Record has received information from the Saskatchewan Motor Vehicle Association regarding the number of accidents involving young drivers.

The association reports that there has been a significant increase in the number of accidents involving young drivers in the past few years. This increase is attributed to the fact that many young drivers are inexperienced and lack the necessary skills to drive safely.

The association is calling for more strict licensing requirements for young drivers, including a mandatory period of supervised driving before they can obtain a full license.

Timely Farm Notes

Improve Your Credit Rating

It is a well-known fact that a good credit rating is essential for a farmer to obtain the best prices for his products. However, many farmers do not take the time to improve their credit rating.

The Port Saskatchewan Record has received information from the Saskatchewan Farm Credit Association regarding the importance of a good credit rating.

The association states that a good credit rating can help a farmer to obtain lower interest rates on his loans, which can result in significant savings over the long term.

ARE YOU A BLANKET WARMER OR A BED WOOLGATER?

One of those who pull the blankets off your head when a draft comes from the back porch is a true husband who is the culprit! With sheep you no more comfort when your wife is engaged with a dull contented electric blanket. You will both have more comfort when you are in bed with a good electric blanket.

WHY THE WOMEN OF ALBERTA ARE VOTING LIBERAL IN THIS FEDERAL ELECTION

FAMILY SECURITY
As women, we know that the Liberal government, through family allowances, old age pensions, veterans' pensions, child and disabled grants, National Housing Act, has done more to safeguard our homes and families than any other party.

WOMAN'S INSURANCE
As women, we are voting Liberal in support of the national health insurance program.

WOMAN'S EDUCATION
As women, we are supporting the Liberal party which has proposed all sorts of educational character and ability, and whose policies have contributed greatly to peace in our world.

RECOGNITION OF WOMEN
As women, we support of progress by the Liberal party who are determined to give women the same rights as men in all respects.

WOMAN'S PART
As women, we are proud of the reality our party can be called upon to give us everything that we need for a better life. We are voting Liberal, the only party that can give us everything that we need.

The right man in the right job

LOUIS ST. LAURENT was for Canada's future in building objectives of national development... to provide him in this field a more abundant life for all our people.

Under his leadership, our population has increased over 25 per cent... a million new homes have been built... our standard of living is higher... and national development is well on its way.

Above all, Louis St. Laurent has made the most of our people. The Government has been able to provide greater social protection to the Canadian people... national leadership for a nation proud of its achievements.

Canada's greatest prime minister, Louis St. Laurent is the man who has made the difference between a good life and a better life. Vote Louis St. Laurent for your 1967 election. He is the man who has made the difference between a good life and a better life.

For a greater Canada... for tomorrow's opportunities...

Use Fire Proof, Strong, Rigid 3-8" Gyproc Plaster Board

... for all your remodeling and new construction needs. It may be applied directly on 1 1/2" square framing or over existing wall finishes. Use it also for heavy garage walls and ceilings as it gives you excellent fire protection between it and the room.

These points are reasons to allow you to fit the Gyproc and leave a fast, smooth, uniform wall. Available in the following sizes:

4' x 8'	1.80	4' x 9'	2.70
4' x 7'	2.10	4' x 10'	3.00
4' x 6'	2.40	4' x 12'	3.60

New Regulations And Fees Approved For Mobile Homes

Mobile homes in the Department of Municipal Affairs, which are subject to the same regulations as other types of mobile homes, are now subject to a new set of regulations. The regulations, which were approved by the Department of Municipal Affairs, are designed to improve the safety and health of mobile homes and to ensure that they are properly maintained. The regulations cover a wide range of topics, including the construction, maintenance, and operation of mobile homes. They also cover the fees that must be paid for the registration and inspection of mobile homes. The regulations are designed to ensure that mobile homes are safe and healthy for the people who live in them. They are also designed to ensure that mobile homes are properly maintained and that they are operated in a safe and responsible manner. The regulations are a significant step forward in the regulation of mobile homes and are expected to improve the safety and health of mobile homes and the people who live in them.

Sumach Weakness

Sumach, a small town in the northwestern part of the province, is known for its weak economy. The town's economy is primarily based on the forestry industry, which has been in decline for several years. The town's population is small and its infrastructure is outdated. The town's economy is weak and its future is uncertain. The town's economy is primarily based on the forestry industry, which has been in decline for several years. Los Angeles Takes Lives of Eight Americans Last Year

One week today off the Los Angeles Times' front page: "Police: Five more victims of the city's epidemic of drive-by shootings."

Remember the flight instructor who was shot down by a Los Angeles police officer in 1992? Well, he's not the only one. In 1993, eight Americans were killed in drive-by shootings in Los Angeles. The victims were:

Want to know why? Today everything costs more, including the acres of things a growing family needs. Gasoline costs more, too.

But government figures show that since 1950 the cost of living has gone up more than 100 percent while wholesale gasoline prices have risen about 60 percent—less than a third as much.

And what's more—today's regular gasoline is far superior to the synthetic grades sold only two years ago.

AFB Urges Return of Egg-Mourning Blackbirds

The Alberta Federation of Agriculture has urged an immediate ban on the hunting and export of these birds for the bird-eating flycatcher.

The birds, which are now being hunted as if regulated gamebirds, are being sold for \$100 a pair. The birds have a unique and vital ecological purpose and should therefore be protected to mark the habitat for the protection of the prairie grain and beef.

The Federation believes the stated fact that predators cannot be killed should void the ban. The plan was to protect the birds from the flycatcher, a pest that feeds on the eggs of all regulated gamebirds. This simply means that the birds are not being hunted as game birds.

Game regulations for many years through their annual hunting season, the establishment of a hunting bag limit for the flycatcher, it was not until 1975 that the birds were protected.

"The birds are a valuable wildlife asset and the operation of marketing them in Alberta is a serious threat to the birds," says the Federation. "The ban proposed is reported as being the first step in the implementation of the marketing of egg products for some years in 1978."

The Dairy Enterprise Account

This type of account provides detailed information on each enterprise so that the farm business is included information on the cash and non-cash expenses of the dairy herd, poultry, beef and the different crop enterprises. To keep this type of record the farmer must diligently keep total spending for general cash expenses. He must determine the cost of the grain used to feed his milk cows or poultry. The information is a more difficult factor to keep, not because it is any less complicated than the other farm

Parents Asked To Attend Meet

At 7:30 p.m., the school principal and teachers met with parents to discuss the school's plans for the coming year. The meeting was held in the school's main hall and was attended by about 100 parents. The principal, Mr. John Smith, welcomed the parents and thanked them for their support of the school. He then outlined the school's goals for the coming year, which included improving the quality of education, increasing student participation in extracurricular activities, and strengthening the relationship between the school and the community. The principal also announced that the school would be holding a series of workshops for parents to help them understand the school's curriculum and how they can support their child's learning at home. The meeting ended with a question and answer session and a refreshment break.

Alberta's Fatal Farm Accidents Highest in Number of Years

Alberta's fatal farm accidents are at their highest in 12 years, according to a report released by the Alberta Safety Council.

The report, based on data from 1947 to 1958, shows that the number of fatal farm accidents in Alberta has increased steadily over the past decade. In 1947, there were 12 fatal accidents, while in 1958, there were 24.

The most common causes of fatal farm accidents are machinery accidents, particularly involving tractors and combines. Other common causes include falls from heights, fires, and drownings.

The Alberta Safety Council is a non-profit organization dedicated to reducing the number of farm accidents in Alberta. It provides safety education and training to farmers and farm workers, and it also conducts research into the causes of farm accidents.

Reports Show Returns Down

The Albinoasian District has reported a significant decrease in returns for the current year compared to the previous year. This is due to a variety of factors, including a decrease in the number of returns filed and a decrease in the amount of returns received.

The district is currently working to identify the reasons for this decrease and to develop strategies to increase returns in the future. This includes providing more information to taxpayers and improving the efficiency of the return filing process.

FARMERS...

Now is the time to get your Seed Stock Checked before the Spring rush!

Seed stock is a critical component of a farmer's success, and it is important to ensure that it is of the highest quality. This involves checking the seed for purity, vigor, and health.

The best way to ensure the quality of your seed stock is to have it checked by a professional seed analyst. This will provide you with a detailed report on the quality of your seed and allow you to make any necessary adjustments before the spring planting season.

Vote the PEARSON PLAN

TO RAISE FARM INCOME - CREATE MARKETS BUILD TRADE

Here are some of the ways the Liberals will work to bring farmers a better future, than the nation's income, even up to them to ensure healthy future growth...

- Put more money in people's pockets, more people buy or work to stimulate heavier buying, resulting buying of farm products by Canadian consumers.
- Set trade policies to expand markets, not new customers and drive old ones away.
- Extend price supports on wheat, oats, barley, rye, flax, butter - pay cost of surplus grain storage on farms to put costs in the farmers' hands.
- Launch rural housing program, provide tax credits on new storage buildings to aid farm and home development.
- Provide low-cost long-term credit for land and permanent improvements, medium-term credit for livestock, machinery and other products through new Farm Development Bank.
- Establish new Export Board to speed up export sales in foreign markets.
- Promote federal, free trade between North Atlantic Nations, including Britain and United States.
- Improve Canada's food shipments to meet or underdeveloped countries... work with United States and others to establish fair and orderly disposal of surplus crops in world markets.

They are the present policy of all, of inadequate measures to meet the farmer's urgent and growing problems.

TO RAISE FARM INCOME - CREATE MARKETS BUILD TRADE

Here are some of the ways the Liberals will work to bring farmers a better future, than the nation's income, even up to them to ensure healthy future growth...

- Put more money in people's pockets, more people buy or work to stimulate heavier buying, resulting buying of farm products by Canadian consumers.
- Set trade policies to expand markets, not new customers and drive old ones away.
- Extend price supports on wheat, oats, barley, rye, flax, butter - pay cost of surplus grain storage on farms to put costs in the farmers' hands.
- Launch rural housing program, provide tax credits on new storage buildings to aid farm and home development.
- Provide low-cost long-term credit for land and permanent improvements, medium-term credit for livestock, machinery and other products through new Farm Development Bank.
- Establish new Export Board to speed up export sales in foreign markets.
- Promote federal, free trade between North Atlantic Nations, including Britain and United States.

What Do You Know About "Salinity?"

"Salinity" is an abbreviation of the word "saline," which means "salty." It describes the amount of salt in a liquid, and it's an important factor in determining the health of the water in your aquarium.

The units to measure salinity are known as "parts per thousand," or ppt. The average salinity of seawater is 35 ppt, which means there are 35 parts of salt in every 1,000 parts of water. In an aquarium, the salinity should be between 32 and 36 ppt, depending on the species of fish you are keeping.

There are several ways to measure salinity. The most common is using a hydrometer, which is a glass tube filled with water and a float. The float rises to a certain level, and the salinity is read from a scale on the side. Another way is to use a refractometer, which measures the refractive index of the water. This is a more accurate method, but it is also more expensive.

Salinity is important for several reasons. First, it affects the osmotic pressure of the water, which is the pressure that causes water to move in and out of cells. If the salinity is too low, water will move out of the cells, and they will shrivel up. If the salinity is too high, water will move into the cells, and they will burst. Second, salinity affects the metabolism of the fish. Many fish have evolved to live in water with a certain salinity, and they may not be able to survive in water with a different salinity. Finally, salinity affects the growth of algae and other organisms in the aquarium.

If you are having problems with your aquarium, it is a good idea to check the salinity. If it is too low, you can add salt to the water. If it is too high, you can dilute the water with fresh water. It is important to do this gradually, as a sudden change in salinity can be stressful for the fish.

Salinity is a simple but important factor in aquarium care. By understanding what salinity is and how to measure it, you can help keep your fish healthy and happy.

Use white sugar unless brown sugar is called for in the recipe. White sugar for cakes must be fine, but coarse sugar with a raffin grain if sugar is lumpy, sift before using. To keep brown sugar moist and soft leave a piece of bread or apple in the sugar jar.

Egg whites whip best at room temperature when at first, then down cold.

**Look who's wearing her
'immediate cash adjustment'!**

Gratias! What a joy! A lady can hardly keep up with things these days. With that edge spinning around in the sky and all, and you all this excitement about changing over your Victory Bonds. I am sorry to see mine go. Had it as long you know. But when the young man at the bank explained that these new bonds paid more interest, I will have a good thing when I see it. And besides, he gave me a nice adjustment—which I thought was quite a nice bonus. Like it?

New Van Regulations Give More Protection To School Children

School children and their parents will be relieved to learn that new regulations governing the use of motor vehicles in school zones will be in effect from September 1, 1958.

The new regulations, which are being enforced by the Fort Saskatchewan Police Department, will require all motor vehicles to stop at a red light when the school children are crossing the street.

The regulations also require that all motor vehicles must be stopped at a red light when the school children are crossing the street.

Profitable Farming

Many farmers in the Western Canada have made a big profit from the grain market. A few years ago the grain market was in a slump and many farmers were in a bad way. But now the grain market is up and many farmers are making a big profit.

Always keep your camera loaded and handy so that you can get a picture like this "on the spot" of the moment! It would make a good opening picture for a "School Days" album.

Start a School Days Album

When school opens in about a week, you will have a chance to start a "School Days" album. This is a great idea for parents and children alike. It allows them to capture the first day of school, a time of excitement and new experiences. The album can be a keepsake that children look back on as they grow up.

MODERNISM NEWS

Mr. C. H. Christie returned home from a business trip to the United States. He was accompanied by his wife and two children. They were all well and happy. Mr. Christie was in the city for a few days before returning home.

Standards Act

New regulations are being drafted by the Canadian Agricultural Products Standards Act, promulgated by Parliament. These regulations will set standards for the quality and quantity of agricultural products.

Alberta NSA Executive Committee Holds Two-Day Meeting in Calgary

The Alberta NSA Executive Committee held a two-day meeting in Calgary on September 15 and 16. The meeting was attended by representatives from various NSA chapters across the province. The agenda included discussions on current NSA activities, upcoming events, and the future of the organization in Alberta.

Set Aside Seed For Next Year

The Alberta NSA Executive Committee has decided to set aside a portion of the current year's seed production for use in the next year. This decision was made to ensure that there is a sufficient supply of seed for the following year's planting season, particularly in light of the current weather conditions.

House Cleaning Time in Here

When you have some of your cleaning finished, call on The Little Janitor Service. We will come in and finish the job for you. Our service is reliable and efficient, ensuring that your home is spotless and ready for the next day.

Trends in Poultry Production

By J. W. HENDRICK

The poultry industry in Canada is facing a number of challenges in the coming years. The industry is expected to grow at a rate of 1.5% per year, but this growth is being offset by a decline in the number of birds produced.

Tougher Laws To be Discussed

The Saskatchewan government is planning to introduce a number of new laws to deal with the problem of drug addiction. These laws are expected to be more stringent than those currently in place.

Cattle Numbers Down in 1988

Canada's farm census shows that the number of cattle in the country has declined for the fourth year in a row. The 1987 census shows a total of 1,100,000 head, down from 1,120,000 in 1986. The decline is attributed to a combination of factors, including a drop in the number of calves born and a higher rate of culling. The census also shows a decline in the number of cattle in the beef and dairy herds. The beef herd is down by 100,000 head, while the dairy herd is down by 50,000 head. The census also shows a decline in the number of cattle in the horse and pony herds. The horse and pony herd is down by 10,000 head, while the beef and dairy herds are down by 100,000 head each. The census also shows a decline in the number of cattle in the sheep and goat herds. The sheep and goat herd is down by 10,000 head, while the beef and dairy herds are down by 100,000 head each. The census also shows a decline in the number of cattle in the pig and poultry herds. The pig and poultry herd is down by 10,000 head, while the beef and dairy herds are down by 100,000 head each. The census also shows a decline in the number of cattle in the rabbit and bird herds. The rabbit and bird herd is down by 10,000 head, while the beef and dairy herds are down by 100,000 head each. The census also shows a decline in the number of cattle in the fish and shellfish herds. The fish and shellfish herd is down by 10,000 head, while the beef and dairy herds are down by 100,000 head each. The census also shows a decline in the number of cattle in the other herds. The other herds are down by 10,000 head, while the beef and dairy herds are down by 100,000 head each.

Fire Brigade Briefs

By Don Chad & W. D. Chad

What an excellent year for the fire brigade in Port Saskatchewan. The year has been a very successful one for the brigade, and the members are proud of their accomplishments.

The brigade has been very active throughout the year, and has participated in many fire drills and exercises. The members have also been very helpful in the community, and have been instrumental in many fire prevention campaigns.

The brigade is proud of its accomplishments, and is looking forward to a successful year in the future.

Alberta Traffic Death Toll Reaches All Time High

The Alberta Traffic Death Toll has reached an all-time high, according to a report released by the Alberta Motor Vehicle Council. The report states that the number of traffic deaths in the province has increased by 10 per cent over the past year.

The report also states that the number of traffic accidents in the province has increased by 15 per cent over the past year. The increase in traffic deaths and accidents is a cause for concern, and the Motor Vehicle Council is calling for more strict traffic laws and enforcement.

The Motor Vehicle Council is a non-profit organization that is dedicated to reducing traffic deaths and accidents in Alberta. It is calling for more strict traffic laws and enforcement, and is also calling for more education and training for drivers.

Shop at Home Contest

The "Shop at Home" contest announced by Fort L. Harrison merchants this week has the same approach of a type of co-operation by local businessmen in the past. The contest has followed his individual style and watched the mounting concern that businessmen in the city have active co-operation much can be done to remedy this "shop at home" and turn a good part of that business back to the city.

This newspaper has previously encouraged the "Shop at Home" cause and the move by local businessmen to co-operate in the way have long been a part of the city's life. It will lead to continued harmony in the future.

Best Wishes for CHRISTMAS

Good Christmas greetings and good wishes, friends and neighbors! It is our sincere hope that the joyous spirit of this happiness of all holidays will light up your homes and your hearts with peace and good will. May you over be blessed by the rich rewards of loving friends and loved ones around you. As you observe Christmas with those near and dear to you, may you realize anew at the true meaning and eternal glory of this holy time. May it bring you inspiration for every day of a more abundant life.

HOW FERTILIZER BOOSTS YOUR PROFIT ON WHEAT

YOU CAN MAKE UP TO \$1.00 PER ACRE MORE!

Actual field tests show how your net profit per acre of summer-fallow wheat is boosted by the use of Elephant Brand Fertilizer.

In the table below, note that the increased profit figure takes the cost of fertilizer into consideration. An increased profit of over \$1.00 per acre is certainly worthwhile.

Fertilizer per acre	Net Profit per acre
0 or 11-40-0 (Cost \$2.00)	Increased yield per acre.....\$0.40 (net \$10.00)
YOUR INCREASED PROFIT PER ACRE.....	\$1.40
ON \$20.00 TO 100 ACRES	

When properly fertilized, wheat grows an additional bush per acre on equally profitable returns per acre. For a greater net profit than any other you can get, contact your Elephant Brand dealer about the right fertilizer.

High pressure waterlogging in the delta of farmers to produce profitable crops appears to be a profitable venture on the part of the volunteer who have shown interest in the water they have in the crop.

It has come to the attention of the branch, reports Alberta's field commissioner A. M. Wilson, that Sir John Allison is being paid for Alberta. The grass is apparently hybrid between sargassum and John grass. The latter is a perennial weed and sargassum is a grass that is sown largely to the soil.

CHRYSLER... Wonderful Windsor.
Superb Saratoga • Exquisite New Yorker

Now, with the new medium-priced Windsor, there's a Chrysler model to suit almost every new-car buyer. And every Chrysler offers you the ultimate in its particular price class — the unrivaled driving ease of push-button automatic Torque-Flite transmission, push-button heating controls, swing-out oval front seats, the superb rideability and comfort of the industry's most advanced suspension system. And on the Sebring or New Yorker you may have new Auto-Flat, for effortless mastery of that big V-8 power.

Look inside, outside, wherever. Plymouth '80 is really new, really different! It brings you features other cars won't wish they had. New, trend-setting creel front seats, for instance. Newly improved, smoother-than-ever Torstar-AIRX Ribs. New advanced-design "315" V-6 or Econo-Jet 6 engine. New push-button heating-defrosting system. And the marvelous convenience of push-button automatic drive. In every way, if it's new Plymouth's got it!

You'll haul more, and look better doing it, in a Fargo Superlift pick-up for 1974. You can choose from three wheelbases, three body sizes, and each holds the most by volume, weight and load length of any pick-up in the industry. Fargo brings you more new features, too, new suspended brake and clutch pedals; new hydraulically lowered clutch; new higher handles, to mention just a few. Whatever your job requires, from 4,500 lbs. G.V.W. to 65,000 lbs. G.C.W., there's a Fargo Superlift to do it best!

PLYMOUTH... lively, lovely, now all over!
Look inside, outside, wherever, Plymouth '59 is really new, really different! It brings you features other cars can't wait to load. New, trend-setting wheel covers, for instance. New, improved, smoother-than-smooth Torque-Flite Ride. New, advanced design "B17" V-8-Kaiser 6 engine. New push-button heating-driving controls. And the marvelous convenience of push-button automatic drive. In every way, it's now Plymouth's got it!

FARGO TRUCKS... New Superline styling for 1959!
You'll find more, and look better doing it, in a Fargo Superline pick-up or '59 Van. You can choose from three wheelbases, three body styles, and each holds the most by volume, weight and load length of any pick-up in the industry. Fargo brings you more new features, too, new extended-life and shock pads; new hydraulically actuated clamps; new shock absorbers, to mention just a few. Whatever your job requires, use a Fargo. The C.E.W. is at 1000 S.E. 10th St. Fargo trucks do it best!

Domestic-wide Observance Next Week Of National Farm Safety Week

The National Farm Safety Week is being observed in Canada from July 13 to 19, 1959. This year's theme is "Safety on the Farm". The observance is a time when farmers and farm families are encouraged to take special steps to ensure the safety of everyone on the farm. This includes checking the condition of farm equipment, making sure that all family members are properly trained in the use of farm equipment, and making sure that all safety precautions are followed. The observance is a very important time for farmers and farm families. It is a time when they can take steps to prevent accidents and injuries on the farm. This is why it is so important that everyone on the farm takes safety seriously during this week.

Of Many Things

There are many things that farmers and farm families should be aware of during National Farm Safety Week. One of the most important things is to make sure that all farm equipment is in good condition. This includes checking the oil, the tires, and the brakes. It also includes making sure that all safety features are working properly. Another important thing is to make sure that all family members are properly trained in the use of farm equipment. This includes making sure that they know how to use the equipment safely and that they understand the risks involved. Finally, it is important to make sure that all safety precautions are followed. This includes wearing seat belts, using proper lifting techniques, and avoiding distractions while working on the farm. By following these guidelines, farmers and farm families can help to prevent accidents and injuries on the farm.

Fire Brigade

The Fire Brigade in Port Saskatchewan is a very important organization. They are responsible for protecting the community from fires and other emergencies. They have a team of trained firefighters who are ready to respond to any emergency at any time. They also have a variety of fire-fighting equipment, including fire trucks, ladders, and hoses. The Fire Brigade is a very important part of the community and everyone should be aware of their services.

Three Countries Join in Campaign to Reduce Summer Traffic Accidents

The United States, Canada, and Great Britain have joined in a campaign to reduce summer traffic accidents. The campaign is called "Safe Summer Driving". It is a joint effort by the three countries to raise awareness of the dangers of driving during the summer months. The campaign includes a variety of activities, including public service announcements, safety demonstrations, and educational programs. The goal of the campaign is to reduce the number of traffic accidents during the summer months. This is a very important goal, as traffic accidents are a leading cause of death and injury during the summer months. By participating in the campaign, drivers can help to make the summer months safer for everyone.

Memory Lane

Memory Lane is a new feature in the Port Saskatchewan Record. It is a place where readers can share their memories of the past. The feature is called "Memory Lane" because it takes readers on a journey through time. Readers can share their memories of the people, places, and events that have shaped their lives. The feature is a great way to connect with others and to share the stories that have shaped our community. It is a place where everyone can find a piece of their own history. If you have a memory that you would like to share, please write it up and send it to the editor. We would be happy to publish it in Memory Lane.

FARM HAZARD

NO. 1

ALWAYS

YOUR TRACTOR CAN BECOME A DEADLY KILLER... NEVER RELAX!

Statistics show that tractors have caused more deaths and injuries than any other piece of farm equipment. This is why it is so important that you take steps to prevent accidents. You should always wear your seat belt, use proper lifting techniques, and avoid distractions while operating your tractor. You should also make sure that your tractor is in good condition. This includes checking the oil, the tires, and the brakes. By following these guidelines, you can help to prevent accidents and keep yourself and others safe. This is the Farm Hazard.

For today's farming you need the new features of Massey-Ferguson machines

Today's new farming methods; new technical developments and new engineering advances bring constant change and improvement to tractors, combines and other farm machines.

Old style machines don't give you the ease of handling and speed you want, they don't have the labour saving features you need and they don't give you the money-saving ability to help you farm profitably.

Obtain complete details that leave little if needed to meet the demands of today's farming.

Move ahead with the latest Massey-Ferguson machines and see proof of the handling of today's farm modern with out of date equipment. Ask your local Massey-Ferguson dealer for full particulars about the latest models.

Pig Rustlers On Increase

The entire industry has been hit by a serious case of rustling. The rustlers are now rustling more than ever before. The rustlers are now rustling more than ever before. The rustlers are now rustling more than ever before.

Reminder to Ben Keepers

The rustlers are now rustling more than ever before. The rustlers are now rustling more than ever before. The rustlers are now rustling more than ever before.

Announcing the amalgamation of two great names in the Canadian Brewing Industry

SICKS' EDMONTON BREWERY LTD. and MOLSON'S BREWERY LTD.

will inevitably be known in Alberta as

MOLSON'S EDMONTON BREWERY LTD.

It brings together two of the great names in the Canadian Brewing Industry. From the West to St. Louis - founded in 1901. From the East comes Molson's - founded in 1793.

It is a positive move for both parties. We change will be made in the products, policies or personnel of Sicks' Edmonton Brewery Ltd. This amalgamation combines experience with experience, quality with quality, and tradition with tradition.

MOLSON'S EDMONTON BREWERY LTD.

An Introductory Christmas Special...

Dear Mother

We have a lovely gift for you - a beautiful, rich necklace of Japanese pearls - set for Christmas. The pearls and the setting are in the Grand Hotel on October 23rd or 24th, between 10:00 a.m. and 7:00 p.m.

If you pay the selling charge of \$3.00, you will also give your beautiful \$7.95 5 x 7 inch electronically colored picture of your choice. For \$3.00 you will take pictures of one child or the entire family. Why not let us take your family group - it won't cost a cent more.

These beautiful natural color pictures are guaranteed not to fade and they make lifetime remembrances of just how the kids look. They are so lovely for Christmas gifts. What is nicer than a personal gift like this?

There are no other studios in Alberta doing this type of photography. We have a permanent studio here in Edmonton and another in Port. Let's keep our money at home in Alberta and let us take your pictures. You will love the work and we plan to have your family visit to our studio.

Please dress the children in soft colors, however, it's not absolutely necessary. Just remember that whatever they wear will be reproduced almost exactly as you see it.

We give you a good selection of pearls. Babies on months or older are preferred.

Come to the hotel October 23rd or 24th and see the beautiful work we are doing. You've never seen anything like it. We hope to serve you and we know we can please you.

Sincerely,
HOLIDAY STUDIOS LTD.

What price auto insurance?

Many things help decide what the insurance premium on any motor vehicle will be. Eventually, however, they all have to boil down to two things — the number and the costs of accidents in any particular area. These are the main factors used to determine your car insurance rates.

Report of Committee Conducting Enquiry into Police Matters

A committee of inquiry, headed by Mr. J. H. McLeod, has submitted its report to the Fort Saskatchewan Police Board. The report, which was received by the board on January 11, contains a detailed account of the committee's findings and recommendations regarding the conduct of the police force.

The committee was formed in response to a request from the community for a thorough investigation into the actions of the police. It has held several public hearings and has received numerous suggestions and criticisms from the public.

The report states that the committee has found that the police force is generally well-trained and professional. However, it has identified several areas where improvements are needed, particularly in the areas of communication and community relations.

The committee has recommended that the police board should take steps to improve the training of officers and to establish a more open and transparent system of communication with the community.

The committee also found that there is a need for better coordination between the police and other community agencies. It has recommended that a joint committee be formed to oversee the activities of these agencies and to ensure that they are working together effectively.

In addition, the committee has recommended that the police board should establish a system of regular public hearings to allow the community to voice its concerns and suggestions.

The report concludes by stating that the committee believes these recommendations will lead to a more effective and responsive police force.

Theme-roads street signs with big-city names are one kind of link between the people of the New North and the rest of Canada.

Canadian banks have, since the conflict days, when part of the development of new areas, the opening of new frontiers. Today the chartered banks continue to bring banking services to pioneer settlements on the economic map of Canada is rolled back. They have at the same time greatly increased the number of branches in established areas across Canada — now suburban communities, expanding industrial centres — keeping pace with the country's population and business growth.

To take care of all these varied needs, 1,800 new branches have been opened by the chartered banks in the past ten years.

Progress Reported in Alberta Program Of Brucellosis Control in Cattle

A Bulletin Report states that control of brucellosis in cattle has been achieved in 100 per cent of the herds in the province since 1967.

The report says that the program was initiated by the Canadian government in 1967 and was funded by the federal government through the Canadian Food Inspection Agency.

The program was designed to eliminate brucellosis from the cattle population in Alberta and to prevent its spread to other provinces and countries.

The program involved the testing of all cattle in the province for brucellosis and the treatment of infected animals.

The report states that the program has been successful in eliminating brucellosis from the cattle population in Alberta and that the disease has not been detected in any other province or country since 1967.

The success of the program is attributed to the cooperation of the cattle industry and the government in carrying out the program.

The report concludes that the program has been a model for other provinces and countries and that it has helped to protect the health of humans and animals.

Municipal District of Strathcona No. 83
Unthreshed Grain Assistance Policy

Farmers may now make application for assistance to the Municipal Office under the Federal Provincial Government's Agricultural Income Tax Exemption Scheme. The scheme provides that 50% of their total assessed acreage threshold, grossed up to 100%, will be exempted from income tax. Land that failed not to be included, and whose average value is less than \$100 per acre, will be eligible for exemption. The exemption will be converted to wheat on the basis of 1 bushels equals 1 bushel wheat, 1 bushels barley equals 1 bushel wheat, 1 bushels oats equals 1 bushel wheat, 75 bushels rye or rape equals 1 bushel wheat. Applications must be made by the land operator or owner, and must be supported by a valuation certificate. The farmer will be responsible for making the final choice of applications and for processing them for payment. The Department of Agriculture will be responsible for the information collected as quickly as possible so that inspections can be made. No applications can be made until the Department of Agriculture has received the information. The Department of Agriculture will be responsible for the information as quickly as possible. Complete information will be provided to the Department of Agriculture and Field Supervisor.

Volkswagen tick?

empty or loaded. Anti-sway bar (flat cornering). And talk about passenger room—Volkswagen's got it. Stretch your legs, wear a hat, there's space aplenty front and back. Individual seats shaped for comfort adjust low and aft. The angle of the seat back can also be changed. A sloped board for "letter vision." Two luggage areas—under the hood, behind the rear seat. Yes, Volkswagen keeps right on rolling. *—Tommy*

Marjorie appears a "housewife" instead of a "fashioning" model. An LBB spokeswoman says, "Marjorie didn't want to go after a night of work and television. It's a beautiful appearance. Faded and multi-colored, healthy and child-like, in fact, anything but 'integer' is the Canadian housewife. Mrs. Piper will give a four-minute report each weekday morning on LBB's radio network.

Freezing Eggs
Egg prices have been dropping steadily since the November 4 election, and the trend is expected to continue. The egg processors' association has announced that it will be working with the National Egg Processor's Association to develop a national egg processing program. The program will be designed to help processors and producers to better understand the market and to develop a more efficient and profitable industry.

Because of the difference in the way the car is supported, the driver can add to his body weight. For example, the driver can lean back and use his arms to support himself. This can help him to maintain a more upright position and reduce the risk of injury.

The Alberta border figures are also problematic. Although there is a significant increase in egg exports here, it is not clear how a surplus and shortage in the U.S. market can be explained, which is the logical effect of promoting exports. The U.S. border settings are also down 10 to 20 percent, which is not the fact that the border settings in the U.S. are higher. Alberta farmers are down 40 percent. Although the data is not perfect, it is a good indication of the fact that the border settings in the U.S. are higher.

Traffic Control
Short Course

The University of Alberta Dept. of Extension and the Western Can-

into Traffic Parking Associates have been made of a short lease in Traffic Control that is to be sold at the recent bid of \$1.2 million during the last week of the year.

The lease is designed primarily to help dealing with problems of parking facilities, and will be approved by the city council and the city's public utilities, before being put into operation. The lease will allow the city to use the parking facilities and return the lease to the city's responsibility.

The city of Los Angeles will be able to use the parking facilities under the lease, and the city will be able to use the parking facilities under the lease, and the city will be able to use the parking facilities under the lease.

"I pay my gas bill on the budget plan!"
"So do I. It helps me plan my budget knowing my gas bill is the same each month."

A convenient way to budget your monthly gas bill!

EQUAL MONTHLY PAYMENTS . . .
The Gas Bill Budget Plan lets you pay your yearly gas bill over equal monthly payments. Your total gas bill for the year is estimated, then divided by twelve to give you the same amount each month. Your year-end bill is more convenient, more practical - even on your heating bill. Of course, your meter will still be read monthly and actual consumption recorded with the continuing balance noted on your monthly bill.

Process of Malt Manufacture
Malt is a product of the barley grain. It is made by germinating the grain in water and then drying it. The process of malt manufacture is a long and complicated one. It involves many steps, from the selection of the grain to the final drying. The process is a science, and it is one that has been perfected over many years.

Reading Habits Improving

Canadians are often regarded as a country of non-readers. Recent surveys, however, show that more than 14th among the world's nations is the number of bookshelves per capita.

It might seem that Canada's reading habits grow to be interested in reading at the moment. We could point to the United States, which has even less bookshelves per capita than we have. We might take these things, but we would be doing ourselves an injustice.

The Canadian Library Week Council reports that more people are borrowing from their local libraries than ever before. The country's bookshelves have been built up

increasing demands being made on a result. Canada's reading habits are improving and library lending programs are the result of these changes.

It is true that there are still a number of people who do not read, but there is a growing interest in reading. The Canadian Library Week Council reports that more people are borrowing from their local libraries than ever before. The country's bookshelves have been built up

There is a group out at the
the national to go to some place
in some building a number of
communities. It is hard to say again,
and to remember the consequences
of the things that are done
other day with a word.

Nothing has happened since then
except a few slightly greater but
and perhaps there was a small but
increase in the 60 to 70 quality
within the country. And if that
increase is the result, a step,
the country will be with
perhaps different people
and a different set of values. That
will be the first step. I am afraid
the country will be a different
country. The country will be a
different country. The country will
be a different country. The country
will be a different country. The
country will be a different country.

45,000 Entries For Alberta's Farm Safety Essay Contest

The Alberta Farm Safety Essay Contest has received 45,000 entries from across the province. The contest is designed to educate young people about farm safety and to encourage them to take steps to prevent farm accidents. The contest is open to all young people in Alberta who are between the ages of 10 and 18. The contest is judged by a panel of experts in farm safety. The winner of the contest will receive a cash prize and a trophy. The contest is a great way for young people to learn about farm safety and to show their writing skills.

Elaine Allen, a young woman from Fort Saskatchewan, has been named the winner of the Alberta Farm Safety Essay Contest. She has received a cash prize and a trophy for her excellent essay. Elaine's essay was titled "Farm Safety: A Matter of Life and Death." She wrote about the importance of farm safety and the steps that can be taken to prevent farm accidents. Elaine is a very talented young woman and her win is a great achievement.

Candlelit Ceremony Unites Elaine Allen and Kenneth Sayer

A candlelit ceremony was held at the Fort Saskatchewan Community Centre on Wednesday, April 13, to unite Elaine Allen and Kenneth Sayer. The ceremony was held to celebrate their wedding and to raise funds for the Fort Saskatchewan Community Centre. The ceremony was attended by many friends and family members. The ceremony was a beautiful and memorable event. Elaine and Kenneth are now happily married and living in Fort Saskatchewan.

Long Live Good Drivers

Those added for good behavior? That's right—good drivers may add points to your file, as well as to the other driver's. What does the good driver do?

- He stops for the fellow who runs (himself) in the yellow.
- He doesn't oppose the reckless passer, but lets him and back only later.
- He'd rather get a sign of thanks than fifty looks from the other driver.
- He watches for the fellow who may pull out of a parking space without warning.
- He never pedestrians especially children, to think they are members of his own family.
- He always has shoulders and gets out of the roadway's way. Competing with him, he has no experience.

Festival Hold

On Wednesday, March 6, at the War Relocation Authority, a large crowd of interested persons gathered for a musical and dramatic evening which was presented by the students put on at their annual festival.

Mrs. B. Harawa, principal, gave a few words of welcome and appreciation to the audience. She then stated that she was most of all proud of the work of the students.

After a wonderful display of musical talent, the students presented a dramatic play, "The Story of the Japanese American Relocation." The play was a powerful statement of the hardships and sacrifices of the Japanese American people during the war.

The festival was a great success and the students were to be commended for their efforts. The festival was held at the War Relocation Authority, which is a place where the Japanese American people are being resettled.

Construction of an arena has been the subject of much interest in the past few months and appears to have the support of a majority of residents. We have heard that an arena would be a decided asset to the town and that it would be a great help to the hockey players during the winter months. It is a very good idea and one that should be considered.

LOST IN A MAZE OF POWER!

The Brown Family, Visiting our Wabamun Power Plant.

The Brown family, visiting our Wabamun Power Plant, is dwarfed by the giant generators which are the newest additions to our picture of service. The Wabamun Plant is a steam power plant, 36,000,000 cubic feet of gas is burned every day to produce the steam to turn the turbines which run the generators that produce 88,000 horsepower each; or together, nearly two-thirds of the total power produced by all of our hydro-generating stations.

Combining thermal with hydro facilities is another example of Calgary Power's determination to provide the best possible electrical service to all of our customers in Alberta.

Lions Committee Studies Boys' Home Proposal

At a regular meeting of the Lions Club held Monday evening, the committee on the boys' home was asked to go to investigate the feasibility of open-boarding a home for troubled or delinquent boys. The committee was asked to report back to be known as Oak Hill Branch Home and other community organizations concerned with this project at the next meeting.

A progress report on the Oak Hill Home was given by the committee on Wednesday night. It was given by John Linton, president. Thirty-five boys are now in the home at a cost of \$600 per year and it is hoped that the home will be able to handle 100 boys at a cost of \$1,000 per year.
